6. Compute the current Future Facilities Costs.
7. Multiply the quotient computed pursuant to paragraph 3 by the amount determined pursuant to paragraph 6 to compute the amount of Future Facilities Costs to be prepaid (the "Future Facilities Amount").
8. Compute the amount needed to pay interest on the Bond Redemption Amount from the first bond interest and/or principal payment date following the current Fiscal Year until the earliest redemption date for the Outstanding Bonds.
9. Determine the Special Tax levied on the Assessor's Parcel in the current Fiscal Year which has not yet been paid.
10. Compute the minimum amount the CFD Administrator reasonably expects to derive from the reinvestment of the Special Tax Prepayment Amount less the Future Facilities Amount and the Administrative Fees and Expenses from the date of prepayment until the redemption date for the Outstanding Bonds to be redeemed with the prepayment.
11. Add the amounts computed pursuant to paragraphs 8 and 9 and subtract the amount computed pursuant to paragraph 10 (the "Defeasance Amount").

Verify the administrative fees and expenses of CFD No. 8, including the costs of computation of the prepayment, the costs to invest the prepayment proceeds, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the "Administrative Fees and Expenses").
13. If reserve funds for the Outstanding Bonds, if any, are at or above 100% of the reserve requirement (as defined in the Indenture) on the prepayment date, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the "Reserve Fund Credit"). No Reserve Fund Credit shall be granted if reserve funds are below 100% of the reserve requirement.

14. If any capitalized interest for the Outstanding Bonds will not have been expended at the time of the first interest and/or principal payment following the current Fiscal Year, a capitalized interest credit shall be calculated by multiplying the quotient computed pursuant to paragraph 3 by the expected balance in the capitalized interest fund after such first interest and/or principal payment (the "Capitalized Interest Credit").
15. The Special Tax prepayment is equal to the sum of the amounts computed pursuant to paragraphs 4, 5, 7, 11 and 12, less the amounts computed pursuant to paragraphs 13 and 14 (the "Prepayment Amount").
16. From the Prepayment Amount, the amounts computed pursuant to paragraphs 4, 5, 11, 13 and 14 shall be deposited into the appropriate fund as established under the Indenture and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to paragraph 7 shall be deposited into the Construction Fund. The amount computed pursuant to paragraph 12 shall be retained by CFD No. 8.

The Special Tax Prepayment Amount may be sufficient to redeem other than a \$5,000 increment of Bonds. In such cases, the increment above \$5,000 or integral multiple thereof will be retained in the appropriate fund established under the Indenture to be used with the next prepayment of bonds or to make debt service payments.

As a result of the payment of the current Fiscal Year's Special Tax levy as determined under paragraph 9 (above), the CFD Administrator shall remove the current Fiscal Year's Special Tax levy for such Assessor's Parcel from the County tax rolls. With respect to any Assessor's Parcel that is prepaid, the Council shall cause a suitable notice to be recorded in compliance with the Act, to indicate the prepayment of the Special Tax and the release of the Special Tax lien on such Assessor's Parcel, and the obligation of such Assessor's Parcel to pay the Special Tax shall cease.

Notwithstanding the foregoing, no Special Tax prepayment shall be allowed unless the amount of Maximum Special Tax that may be levied on Taxable Property within CFD No. 8 (after excluding 2.877 Acres of Public Property and/or Property Owner Association Property as set forth in Section E) both prior to and after the proposed prepayment is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

(b). Prepayment in Part

The Special Tax on an Assessor's Parcel of Zone Property may be partially prepaid. The amount of the prepayment shall be calculated as in Section H.1;

except that a partial prepayment shall be calculated according to the following formula:

$$PP = [(P_E - AE) \times F] + AE$$

These terms have the following meaning:

AE= the Administrative Fees and Expenses

PP = the partial prepayment

P_E = the Special Tax Prepayment Amount calculated according to Section H.1

F = the percentage by which the owner of the Assessor's Parcel(s) is partially prepaying the Special Tax.

The owner of any Assessor's Parcel who desires such prepayment shall notify the CFD Administrator of such owner's intent to partially prepay the Special Tax and the percentage by which the Special Tax shall be prepaid. The CFD Administrator shall provide the owner with a statement of the amount required for the partial prepayment of the Special Tax for an Assessor's Parcel within thirty (30) days of the request and may charge a reasonable fee for providing this service. With respect to any Assessor's Parcel that is partially prepaid, the City shall (i) distribute the funds remitted to it according to Section H.1, and (ii) indicate in the records of CFD No. 8 that there has been a partial prepayment of the Special Tax and that a portion of the Special Tax with respect to such Assessor's Parcel, equal to the outstanding percentage (1.00 - F) of the remaining Maximum Special Tax, shall continue to be levied on such Assessor's Parcel pursuant to Section E.

I. TERM OF SPECIAL TAX

The Special Tax shall be levied for a period not to exceed fifty years commencing with Fiscal Year 2008-09.
